Survey Methodology

These Keating – Onsight Colorado Poll results are based on a sample of 500 live-interviewer telephone surveys statewide, including 74% cell-phone interviews and 26% land-line interviews, among "active" voters statewide in Colorado. The "active" voters in this survey were randomly selected from a list of registered voters who voted in November 2016 or November 2018. The poll was conducted from January 20-24, 2019 by Keating Research. The worst case margin of error at the 95% level for the split sample of 500 is plus or minus 4.4%.
